

“Marvellous fishing, great hospitality. Peter will be talking about it for months, and the size of his trout is growing every day.”

Peter and Misty, Scotland

## Fishing Adventures from the Lodge

In this increasingly populated world, your fishing guide will take you off the beaten track to fulfill your flyfishing dreams.

Enjoy numerous streams where you are virtually guaranteed the peace, quiet, and solitude to sight and stalk wild brown and rainbow trout. The terrain is wild, spectacularly beautiful and remote. At times, just getting to a fishing location can be an adventure in itself. A challenging world class fishery is waiting for you - gin clear water, large wild trout and majestic mountain scenery - a justifiably world famous combination.

### Seasons

The fishing here is year round (our wilderness flyfishing adventures run from October to 31 May). You have a choice of nine rivers from swift mountain streams, slow-moving lowland streams, spring creeks and alpine lakes. Dry fly, nymph or drift fish for "cruising browns". The species you can expect to catch are Steelhead rainbow trout, German Brown trout and Quinnat salmon.

Richard with his 8.5lb trout caught on a river near to the lodge

### Access

Remarkables Lodge is only five minutes from the lakeside for boat access to wilderness streams. Our guides use 4WD vehicles to get you to remote areas - fully equipped including lunch. Or you can fly directly into wilderness areas from the Lodge's own heli-pad. Hang your waders in the drying room, soak in the spa pool. Enjoy "Sundowners" around the bar and chat about the one that got away!

### Guides

Experienced guides know when and how to fish our local rivers. They can organise equipment and permits and are happy to introduce beginners to the basics or to find challenging adventures for the more experienced. Our guides are recognised as amongst the best in New Zealand.

### Trophy Paintings

[Erin McDermott](#) is a local artist and a talented fishing guide and offers life size paintings of your fish, with a background which reflects the environment where it was caught. A great moment and a lovely painting in one
