

“What a great ski lodge, so warm and comfortable to come back to each day, and I loved my hot bath each night.”

Skiing Adventures from the Lodge

A Queenstown winter means snow, a crackling log fire, good company and perhaps even a glass of red wine in front of our garden fireplace. The Lodge is at the base of the Remarkables, so offers perfect access to the [Remarkables ski field](#). This varied field has something for everyone, from gentle runs for beginners through to challenging chutes for more experienced skiers/boarders. In addition, Coronet Peak, Cardrona and Treble Cone are within easy driving distance, making it the perfect winter retreat.

Heli-Skiing

Imagine standing on the edge of a huge, untracked, snow covered mountain. Take a deep breath and away you go into virgin, untouched snow. There's nothing like heli-skiing (or boarding).

And you can experience heli-skiing from the Lodge's own helipad. Whether you're a first timer or a hell of a skier - we can get you into the best snow in the Southern Alps. For a description of the heli-ski terrain available from the lodge, and the range of guiding and flying options available, review the [Alpine Heli-ski](#) site.

Personal winter transport and guides

The professional guides from [South Island Guides](#) maximize your winter vacation by taking out all the hassle of getting to the right mountain with the best snow conditions for each day. Their guides are all professional heli-ski guides or highly qualified skiing/snow-boarding instructors. Their knowledge of the weather, terrain and which mountain will offer you the best conditions is unsurpassed and comes from years of working in the winter environment of the Southern Lakes area.

Unlike ski areas overseas that have ski in/out facilities, getting to our mountains requires driving up winding, narrow and often unsealed mountain roads in winter conditions. South Island Guides will get you to the best mountain of choice safely and comfortably in their deluxe winter vehicles while you enjoy the fantastic scenery of the Southern Lakes area. As with any ski area in the world there are always hidden runs that only locals know about.

Remarkable Skiing, a remarkable place to stay

From ski hire to packed lunches, we'll organise whatever you need. And after a hard day's skiing enjoy a sauna, a hydrotherapy spa, soak in your bath or have a massage to ease those aching muscles.

Breakfast will set you up for the day with hot pastries, bottled fruit from the garden and a scrumptious cooked breakfast. Après ski includes glühwein, hot chocolate, home baked pastries around a roaring fire in the garden. Relax in the cosy bar, have a game of pool or curl up with a good book and relax while the chef prepares a delicious dinner.

Too much choice? See our [special ski packages](#) for ideas and prices. To [download a pdf click here](#).

For Queenstown skiing information check out [NZ_Ski](#) and read the [mountain weather forecast](#) from MetService.
